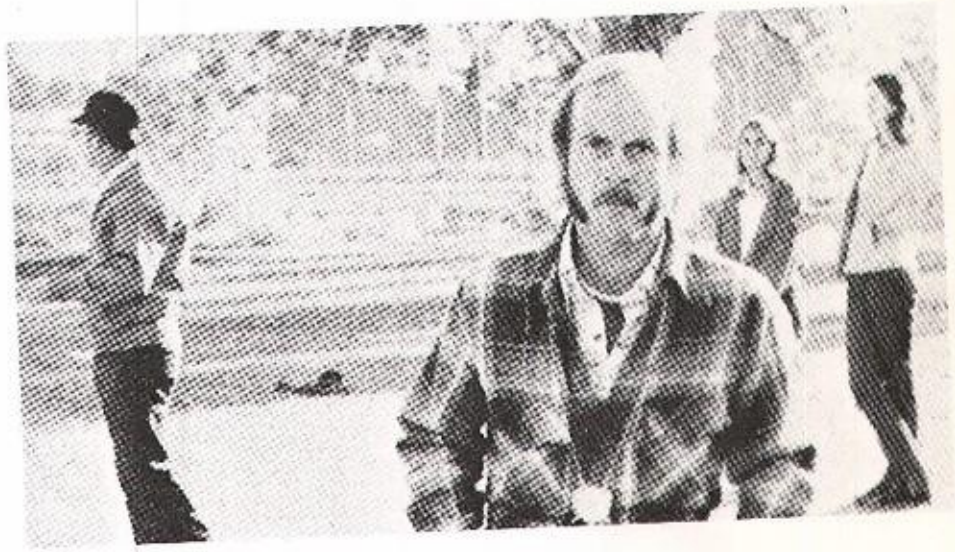
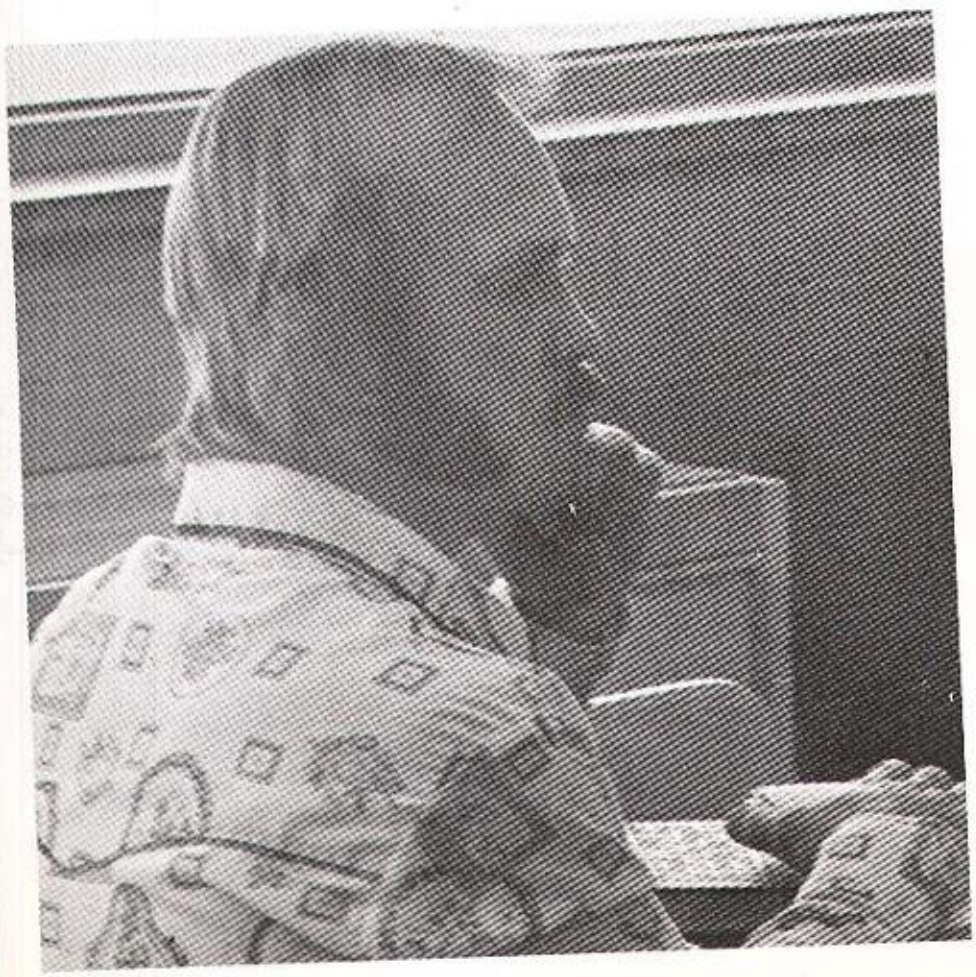
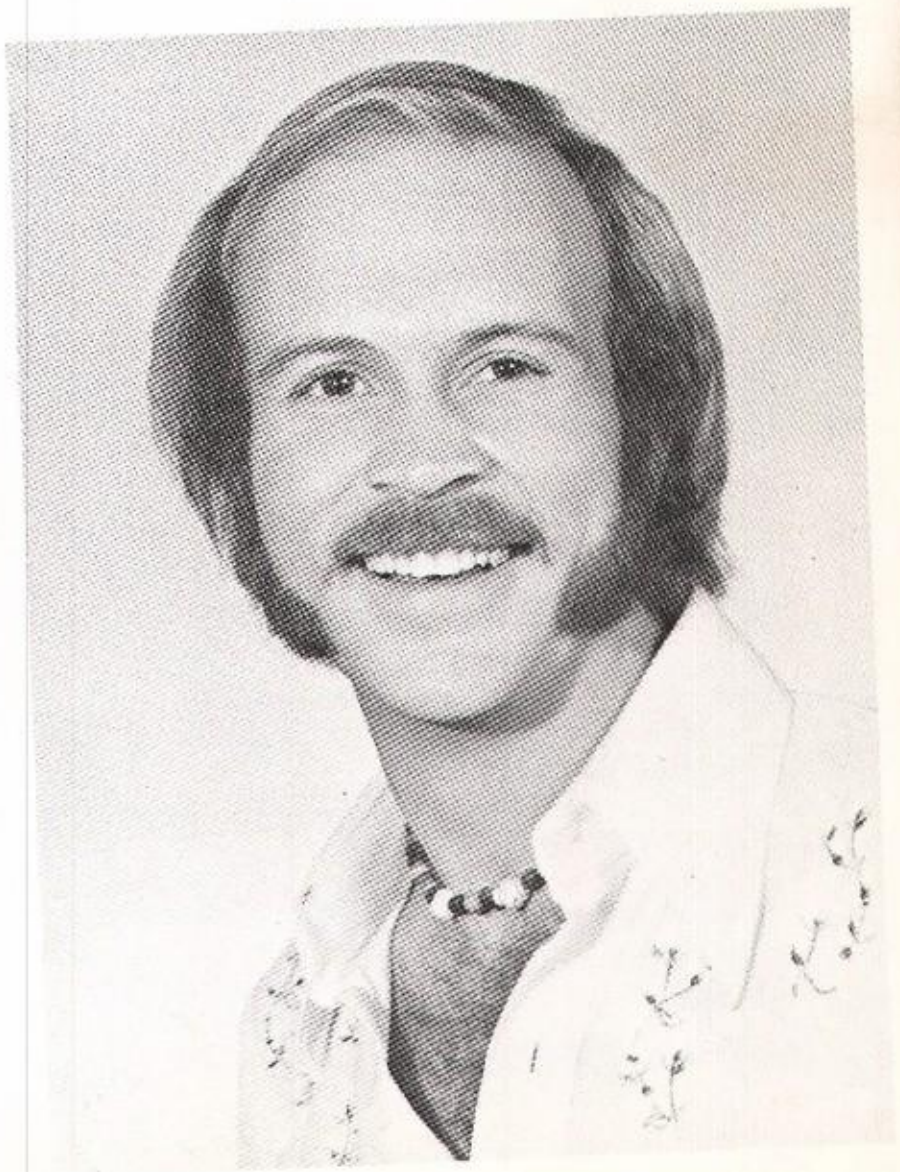
Dedication

As students we rarely get the opportunity to show appreciation to our teachers for the time and effort they put forth in our behalf. At Hinkley we have been very fortunate to have a faculty that is dedicated to the student's development and well being. We would like to express to them our sincere gratitude.

Specifically, Mr. Tangney has proven to be not only an excellent teacher, but also the student's loyal friend. His support and enthusiasm have been a source of inspiration to those around him. The Contrails staff is proud to dedicate this edition of the 1976 annual to him.







O you youths, Western youths,
So impatient, full of action, full of manly pride
and friendship,
Plain I see you Western youths, see you tramping with
the foremost,
Pioneers! O pioneers!

All the past we leave behind,
We debouch upon a newer mightier world, varied world,
Fresh and strong the world we seize, world of labor
and the march,
Pioneers! O pioneers!

We detachments steady throwing,
Down the edges, through the passes, up the mountains
steep,
Conquering, holding, daring, venturing as we go the
unknown ways,
Pioneers! O pioneers!

Colorado men are we,
From the peaks gigantic, from the great sierras and
the high plateaus,
From the mine and from the gully, from the hunting trail
we come,
Pioneers! O pioneers!

Lo, the darting bowling orb!
Lo, the brother orbs around, all the clustering suns
and planets,
All the dazzling days, all the mystic nights with
dreams,
Pioneers! O pioneers!

High Flight

Oh! I have slipped the surly bonds of earth
  And danced the sky on laughter silvered wings;
Sunward I've climbed, and joined the tumbling mirth
  Of sun split clouds-and done a hundred things
You have not dreamed of-wheeled and soared and swung
  High in the sunlit silence. Hov'ring there,
I've chased the wind along and flung
  My eager craft through footless halls of air.

Up, up the long, delirious burning blue
  I've topped the wind swept heights with easy grace
Where never a lark, or even eagle flew-
  And while with silent lifting mind I've trod
The high untrespassed sanctity of space,
  Put out my hand and touched the face of God.

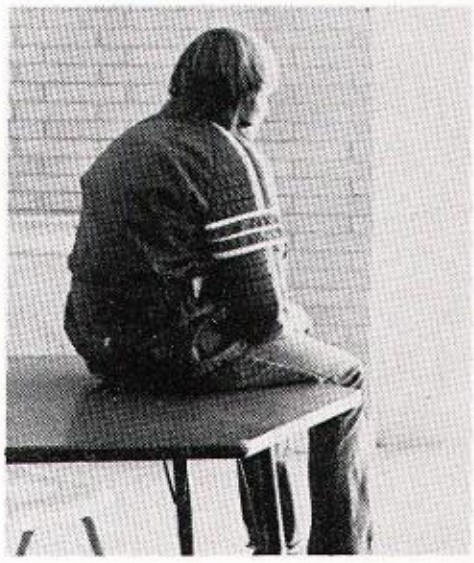
This I Believe

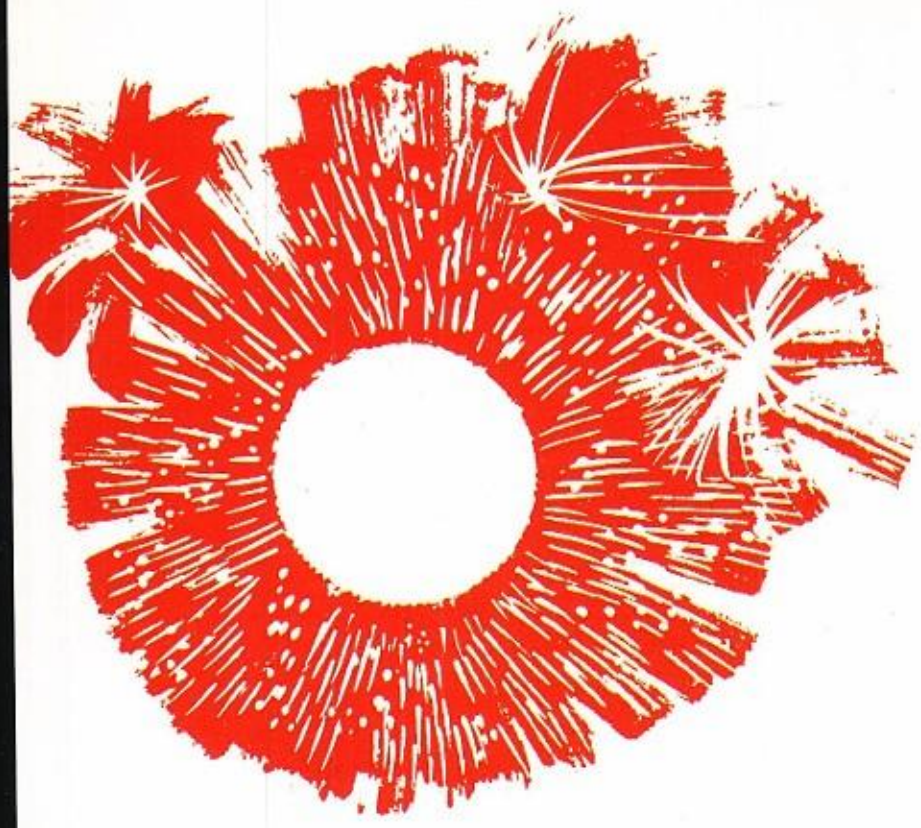
I believe in the miracle of America...

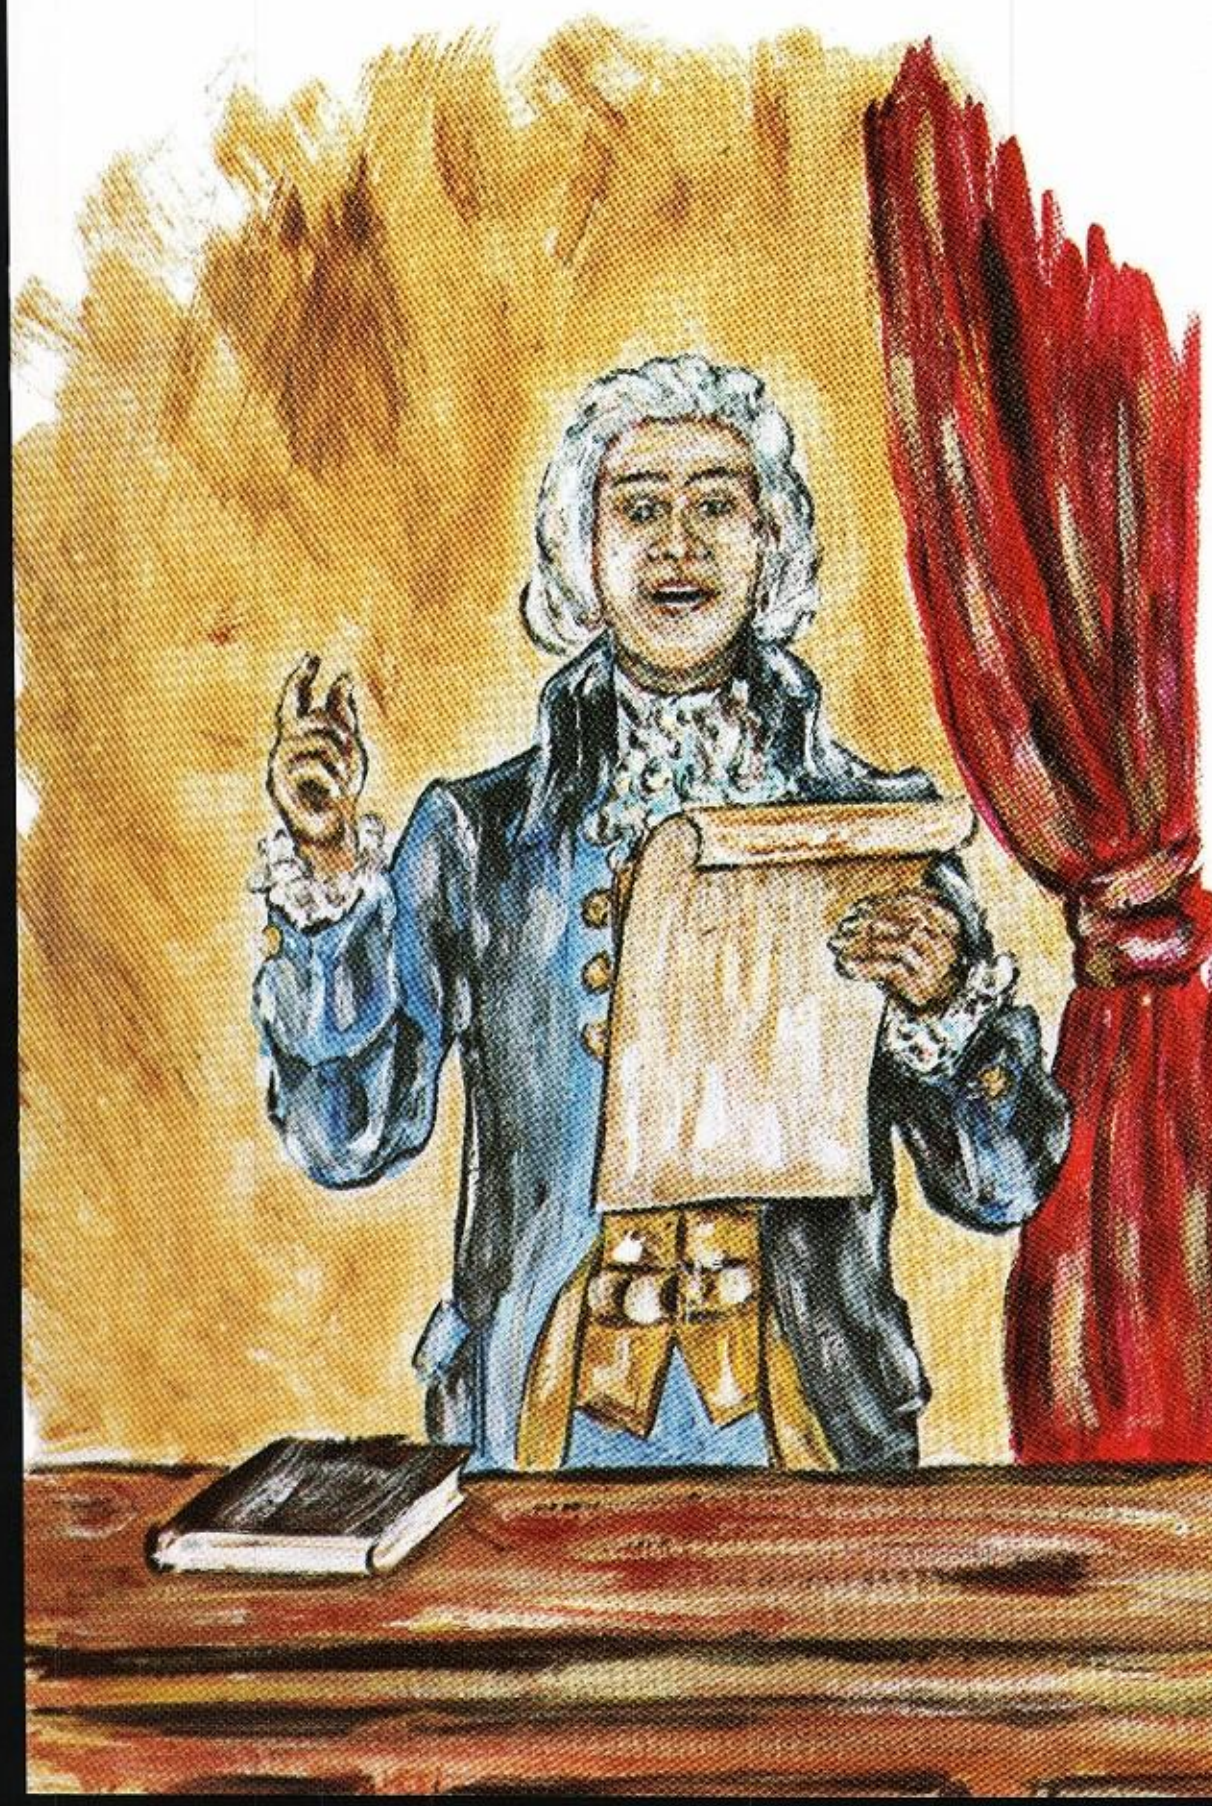
In the common purpose of her people,
Their common hope and their common devotion.
My faith evades definition,
But it is built on Plymouth Rock,
Concord Bridge and Valley Forge.

I reaffirm my faith, thinking of women and children
In covered wagons along the Oregon Trail,
Men on foot over Cumberland Gap;
How corruption and dishonor have always been
Answered by high-hearted patriots.
Their blood runs strong in us,
A lasting part of what we are.

I have faith in the great dream of my country,
Bred to liberty at Runnymede, and nourished
By three centuries of unselfish devotion.
I believe that America is on the verge
Of something noble...
On the border of a new glory that shall shine
In the lives of all people everywhere.
This I believe.







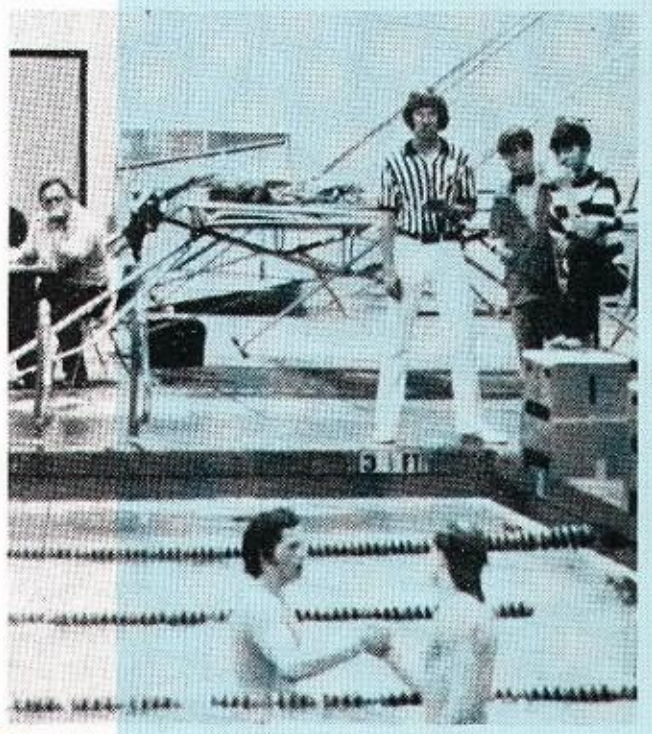
Now, I say to you today, my friends, even though we face the difficulties of today and tomorrow, I still have a dream. It's a dream deeply rooted in the American dream. I have a dream that one day this nation will rise up and live out the true meaning of its creed: "We hold these truths to be self-evident, that all men are created equal."

I have a dream that one day on the red hills of Georgia the sons of former slaves and the sons of former slave owners will be able to sit down together at the table of brotherhood.

I have a dream that my four little children will one day live in a nation where they will not be judged by the color of their skin but by the content of their character.

This is our hope. This is the faith that I go back to the South with— with this faith we will be able to hew out of the mountain of despair a stone of hope.

Dr. Martin Luther King, Jr.



THE FLAG . . .

Every country has its own flag. Our flag did not always look the way it does today. In the early days the colonists lived in thirteen separate colonies, each with its own flag.

The first days of the Revolutionary War, the colonists carried their old flags into battle. They needed one flag to stand for all the colonies fighting together. The American flag was to have a star and a stripe for each of the thirteen colonies.

The Betsy Ross Flag with the stars arranged in a circle was based on the idea that no colony should take precedence. This flag evolved into our present day flag.

All other flags soon disappeared after the Stars and Stripes was adopted, yet the insignia shown on some of them appears occasionally on a state flag.

I believe in the United States of America as a government of the people, by the people, for the people; whose just powers are derived from the consent of the governed; a democracy in a republic, a sovereign nation of many sovereign states; a perfect union, one and inseparable; established upon those principles of freedom, equality, justice and humanity for which American patriots sacrificed their lives and fortunes. I therefore believe it is my duty to my country to love it, to support its constitution, to obey its laws, to respect its flag, and to defend it against all enemies.

IN CONGRESS, JULY 4, 1776.

The unanimous Declaration of the thirteen united States of America,

When in the course of human events it becomes necessary for one people to dissolve the political bands which have connected them with another and to assume among the powers of the earth the separate and equal station to which the laws of nature and of nature's god entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their creator with certain unalienable Rights, that among these are life, liberty and the pursuit of Happiness.—That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed,—That whenever any form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their safety and happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security.—Such has been the patient sufferance of these Colonies; and such is now the necessity which constrains them to alter their former Systems of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let Facts be submitted to a candid world.

He has refused his Assent to Laws, the most wholesome and necessary for the public good.

He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended in their operation till his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them.

He has refused to pass other Laws for the accommodation of large districts of people, unless those people would relinquish the right of Representation in the Legislature, a right inestimable to them and formidable to tyrants only.

He has called together legislative bodies at places unusual, uncomfortable, and distant from the depository of their public Records, for the sole purpose of fatiguing them into compliance with his measures.

He has dissolved Representative Houses repeatedly, for opposing with manly firmness his invasions on the rights of the people.

He has refused for a long time, after such dissolutions, to cause others to be elected; whereby the Legislative powers, incapable of Annihilation, have returned to the People at large for their exercise; the State remaining in the mean time exposed to all the dangers of invasion from without, and convulsions within.

He has endeavoured to prevent the population of these States; for that purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their migrations hither, and raising the conditions of new Appropriations of Lands.

He has obstructed the Administration of Justice, by refusing his Assent to Laws for establishing Judiciary powers.

He has made Judges dependent on his Will alone, for the tenure of their offices, and the amount and payment of their salaries.

He has erected a multitude of New Offices, and sent hither swarms of Officers to harass our people, and eat out their substance.

He has kept among us, in times of peace, Standing Armies without the Consent of our legislatures.

He has affected to render the Military independent of and superior to the Civil power.

He has combined with others to subject us to a jurisdiction foreign to our constitution, and unacknowledged by our laws; giving his Assent to their Acts of pretended Legislation:

For Quartering large bodies of armed troops among us:

For protecting them, by a mock Trial, from punishment for any Murders which they should commit on the Inhabitants of these States:

For cutting off our Trade with all parts of the world:

For imposing Taxes on us without our Consent:

For depriving us in many cases, of the benefits of Trial by Jury:

For transporting us beyond Seas to be tried for pretended offences

For abolishing the free System of English Laws in a neighbouring Province, establishing therein an Arbitrary government, and enlarging its Boundaries so as to render it at once an example and fit instrument for introducing the same absolute rule into these Colonies:

For taking away our Charters, abolishing our most valuable Laws, and altering fundamentally the Forms of our Governments:

For suspending our own Legislatures, and declaring themselves invested with Power to legislate for us in all cases whatsoever.

He has abdicated Government here, by declaring us out of his Protection and waging War against us.

He has plundered our seas, ravaged our Coasts, burnt our towns, and destroyed the lives of our people.

He is at this time transporting large Armies of foreign Mercenaries to compleat the works of death, desolation and tyranny, already begun with circumstances of Cruelty & perfidy scarcely paralleled in the most barbarous ages, and totally unworthy the Head of a civilized nation.

He has constrained our fellow Citizens taken Captive on the high Seas to bear Arms against their Country, to become the executioners of their friends and Brethren, or to fall themselves by their Hands.

He has excited domestic insurrections amongst us, and has endeavoured to bring on the inhabitants of our frontiers, the merciless Indian Savages, whose known rule of warfare, is an undistinguished destruction of all ages, sexes and conditions.

In every stage of these Oppressions We have Petitioned for Redress in the most humble terms: Our repeated Petitions have been answered only by repeated injury. A Prince whose character is thus marked by every act which may define a Tyrant, is unfit to be the ruler of a free People.

Nor have We been wanting in attentions to our British brethren. We have warned them from time to time of attempts by their legislature to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them by the ties of our common kindred to disavow these usurpations, which would inevitably interrupt our connections and correspondence. They too have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity, which denounces our Separation, and hold them, as we hold the rest of mankind, Enemies in War, in Peace Friends.

We, therefore, the Representatives of the united States of America, in General Congress, Assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the Name, and by Authority of the good People of these Colonies, solemnly publish and declare, That these United Colonies are, and of Right ought to be Free and Independent States; that they are Absolved from all Allegiance to the British Crown, and that all political connection between them and the State of Great Britain, is and ought to be totally dissolved; and that as Free and Independent States, they have full Power to levy War, conclude Peace, contract Alliances, establish Commerce, and to do all other Acts and Things which Independent States may of right do.—And for the support of this Declaration, with a firm reliance on the Protection of divine Providence, we mutually pledge to each other our Lives, our Fortunes and our sacred Honor.

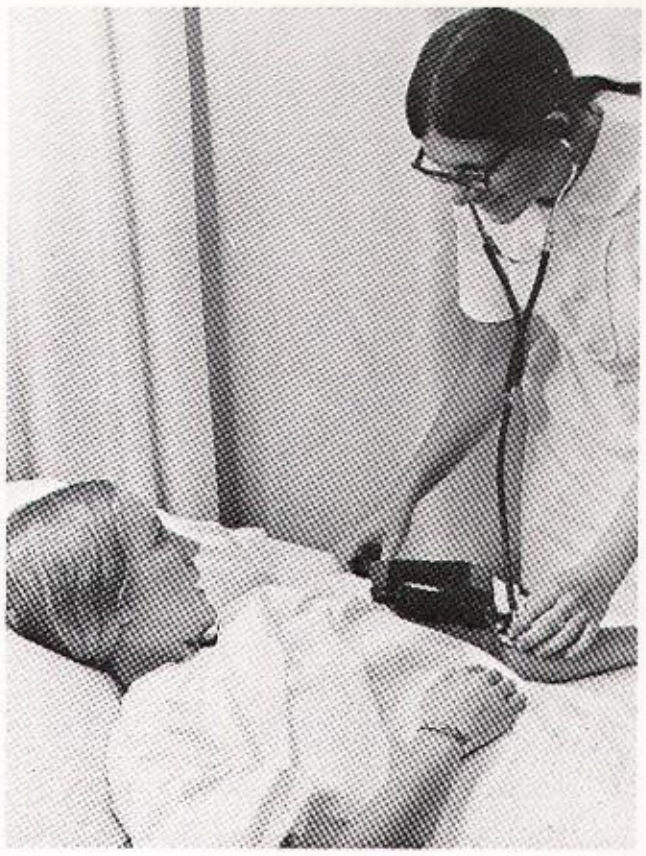
Aurora Technical Center

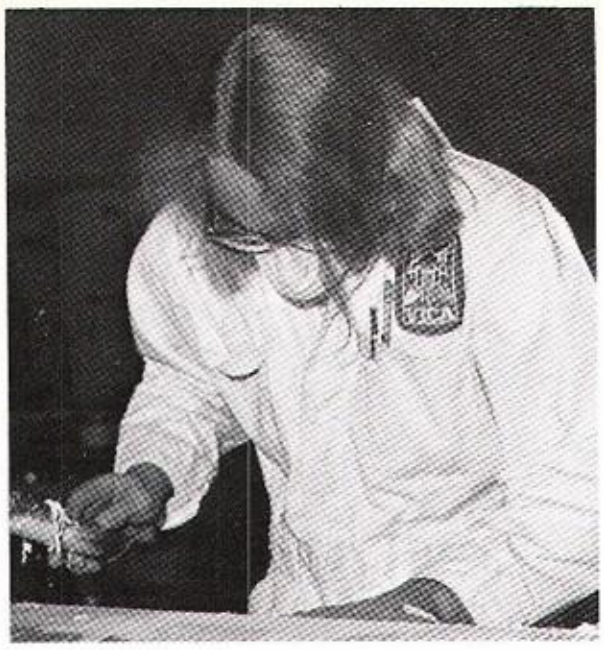
Welding teaches various ways of joining metals.



"What do you mean you can't find any pulse?!"

Opening the door to a promising future.

The Aurora Technical Center, opened in September, 1972, is the result of uncounted hours of effort by citizens, teachers, and administrators. The $1.6 million facility is among the finest in the area, offering vocational-technical training in settings comparable to those found on the job in business and industry.

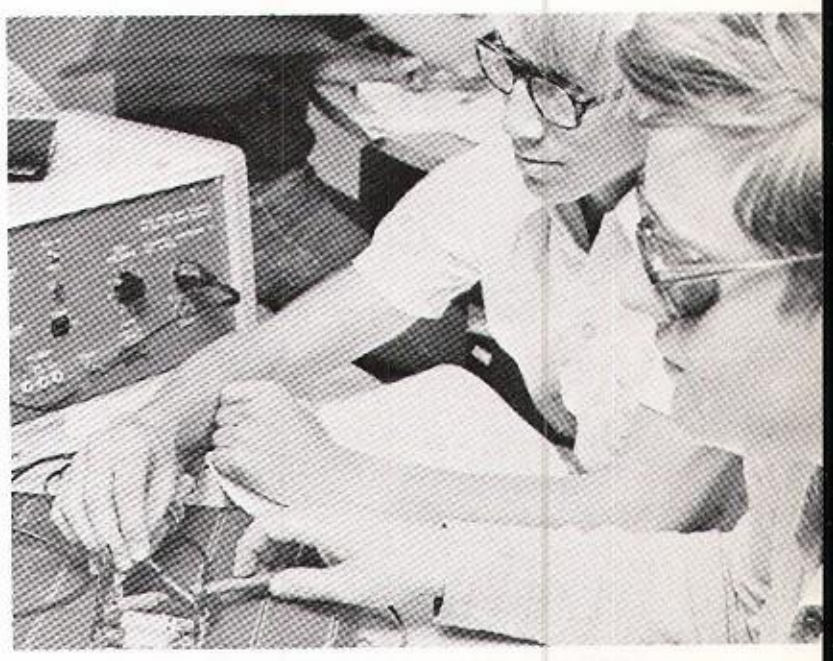


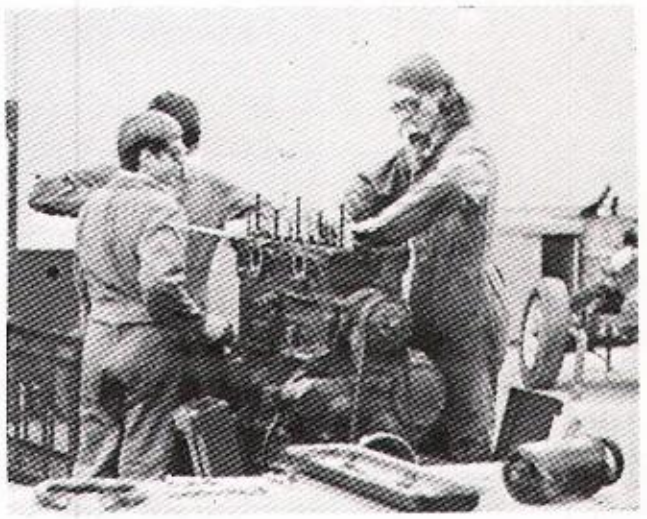
Auto Body Repair develops a working vocabulary, techniques, and new concepts in auto body repair and painting.

The Aurora Technical Center offers many programs such as the ones listed here:

Accounting and Bookkeeping
Advanced Stenography
Agriculture
Allied Health Occupations
Appliance Repair
Auto Body Repair
Auto Mechanics
Building Trades
Business Machines
Commercial Art
Commercial Photography
Consumer Home Economics
Cooperative Homemaking Ed.
Cooperative Office Ed.
Cosmetology
Data Processing
Distributive Education
Drafting
Electronics
Food Services
Graphics-Printing
Horticulture
Motorcycle Mechanics
Office Machine Repair
Office Training
Opticianry
Power Sewing
Welding

Electronics extends into the field of vacuum tube and solid state electronics.





"I sure hope we don't wind up with all those spare parts like we did last time!"

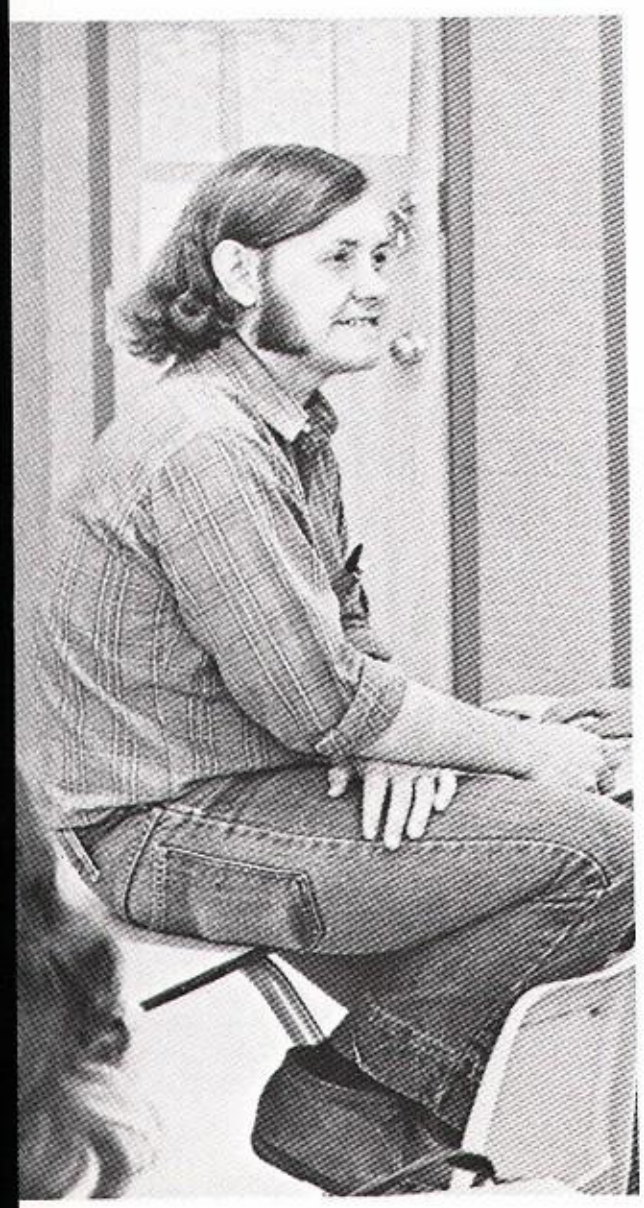
What We Listen For

There is a name we listen for
all our lives, a name like West,
implied at the edges of maps.
Going there, we'd be home—
but we've never seen the place,
so we pass it without ever knowing.

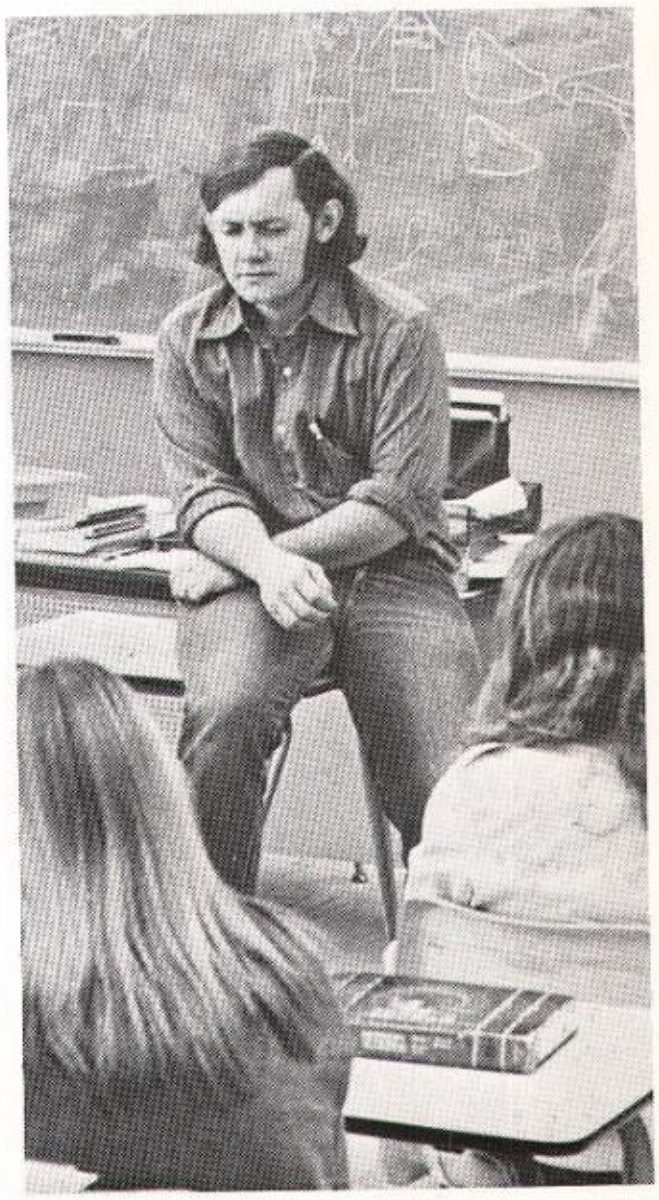
Still, we can sense that country
whenever the wind lifts birds
to the sun: they scatter
(startled like words
from sleep toward freedom),
flying purely to utter:

Flight



At Sunset

At the clearing's edge,
shadows of pine boughs crawl
on my chest and the wind
has the flavor
of delicate destruction.
Even the peaks are wicked
as saw-teeth, slowly
gnawing the sky.
Like cold water, darkness
seeps into the white straws
of my bones. But suddenly
I notice, clinging
to my shirt,
these pink splinters
of forgotten
light.



As the curtain opens . . .

T-Bird Judges

Charly and Marti of KHOW served as judges for the Mr. and Miss T-Bird 1976 competition. The Contrails staff desires to express their deepest gratitude to Charly and Marti, and also Eva Gabor. Miss Gabor served as a judge, but unfortunately, time did not permit Miss Gabor to adequately select Mr. and Miss T-Bird. Miss Gabor expressed that all the contestants were equally attractive, and that it was hard to choose between them.

"And this Kris, is the page devoted to me."

To conclude, I announce what comes after me.

I have offer'd my style to every one, I have journey'd with confident step;

While my pleasure is yet at the full I whisper So Long!

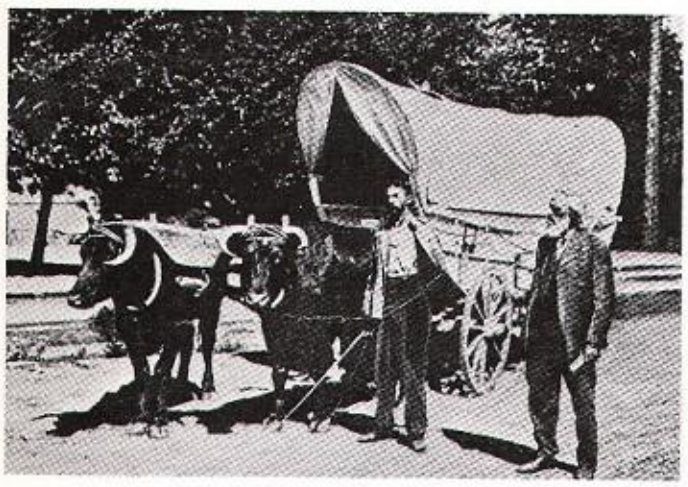
And take the young woman's hand and the young man's hand for the last time.

I announce natural persons to arise, I announce justice triumphant, I announce uncompromising liberty and equality, I announce the justification of candor and the justification of pride.

. . . An unknown sphere more real than I dream'd, more direct, darts awakening rays about me,

So Long!

Most of the quotes used throughout this book were excerpted from Walt Whitman's "Leaves of Grass"



This past year has not gone by without its share of frustration, hard work, and assorted complications. Yet we will never regret having had the opportunity to serve as editors. It was a challenging experience that enlightened us in many aspects.

We would like to express our sincere gratitude to the people who truly worked to put this book together. A special thanks to Ms. Terri Babb and Mr. Dave Stecker for their help and persistance.

We hope this edition of the Contrails has captured a few of the special moments for you.
